

Capsule Slip ring---BLC16

Specification		www.chineseslipring.com
Basic Parameters:		
Outer diameter	12.5mm	
Circuits	<=18circuits	
Operating Speed	0-500rpm	
Working Temperature	-40℃~+80℃	
Working Humidity	60%RH or higher	
Electrical:		
Voltage Rating	240VAC/DC	
Current Rating	2A per circuit	
Dielectric Strength	≥500 VAC@50Hz between per circuit	
Insulation Resistance	500 MΩ@500VDC	
Electronic Noise	≤8mΩ	
Mechanical:		<p>Option</p> <ul style="list-style-type: none"> ● Operating speed ● Circuits ● Signal, power combined ● Current & Voltage ● Lead wire length ● Lead wire exit direction ● Protection class ● Connector
Contact Material	Gold on GoldI	
Wire Size	AWG28 or AWG30 UL certification	
Cable length	Standard 250mm	
Caps Materia	Plastic or metal	
Moment	≤ 0.15 g · m (only parameter to consider)	
Protection Grade	IP54 or higher	
Others:
